

MEMO FOR RECORD

DATE: November 24, 2009

SUBJECT: TASC decision letter

Today, Dana reviewed and approved my letter (without changes) to the community transmitting her decision to not pursue delivering TASC services to the SSFL community at this time. I asked her if I should copy Mike and Clancy and she said no. I asked her if I should contact the elected officials or our congressional staff and she said no. She said to copy the RPMs. She said that we wouldn't do anything else unless we heard back from the community, which she said she didn't expect any response. I questioned that, given that about half the people we were mailing to had wanted TASC resources. Dana replied by saying that she didn't really know how they would respond. In a previous conversation I had said that I would send it to the folks who attended the Informational Meeting in May 2009, so Dana is aware that I'm not sending the letter to the entire SSFL mailing list.
